

S

Human Anti-SARS-CoV-2 Spike-RBD (Clone s309) Neutralizing mAb

Catalog No.	CPC525A CPC525B	Quantity:	50 µg 100 µg
Alternate Names:	Spike glycoprotein, Spike receptor binding domain, Spike-RB protein		
Description:	<p>Recombinant Human anti-SARS-CoV-2 Spike-RBD, Clone s309 is expressed in XtenCHO.</p> <p>Severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) is an enveloped, positive-sense, single-stranded RNA virus that causes coronavirus disease 2019 (COVID-19). The structural proteins of SARS-CoV-2 include the envelope protein (E), spike or surface glycoprotein (S), membrane protein (M) and the nucleocapsid protein (N). The spike glycoprotein is found on the outside of the virus particle and gives coronavirus viruses their crown-like appearance. Spike glycoprotein is cleaved into the following 3 chains, Spike protein S1, Spike protein S2, Spike protein S2'. Spike protein S1 attaches the virion to the cell membrane by interacting with host receptor, initiating the infection. Binding to human ACE2 receptor and internalization of the virus into the endosomes of the host cell induces conformational changes in the Spike glycoprotein. Surface glycoprotein is an important target for vaccine development, antibody therapies and diagnostic antigen-based tests.</p>		
UniProt ID:	P0DTC2		
Immunogen:	Recombinant SARS-CoV-2 Spike-RBD protein		
Specificity:	Recognizes SARS-CoV-2 Spike-RBD protein		
Bioactivity:	EC ₅₀ = 160.6 ng/ml with SARS-CoV-2 Spike-RBD		
Source:	XtenCHO		
Isotype:	Human IgG1		
Clone:	s309		
Concentration:	1.0 mg/ml		
Formulation:	Sterile-filtered PBS, pH 7.5 preservative free.		
Purification:	Protein A affinity chromatography		
Applications:	This antibody may be used as the detecting Ab when paired with CPC527 as the capture antibody in a sandwich ELISA.		
Application Notes:	<p>Neutralizing</p> <p>ELISA: 1:5,000 - 1:10,000</p> <p>Western blot: suggested dilution 1:1,000 - 1:2,000</p>		
Storage & Stability:	Stable at 2-8°C for 1 week or for up to 1 year at -20°C to -80°C. It is recommended to prepare working aliquots of undiluted product and store -20°C to -80°C.		

NOT FOR HUMAN USE. FOR RESEARCH ONLY. NOT FOR DIAGNOSTIC OR THERAPEUTIC USE.
